

about us uniuqesec ab - *about us uniuqesec ab is an innovative company based in gothenburg sweden we develop advanced signal processing algorithms for small scale commercial radars and design test and verification solutions for radars in different applications particularly in automotive, **adar7251 datasheet and product info analog devices** - the adar7251 is a 16 bit 4 channel simultaneous sampling analog to digital converter adc designed especially for applications such as automotive lsr fmcw or fsk fmcw radar systems each of the four channels contains a low noise amplifier lna a programmable gain amplifier pga an equalizer a multibit adc and a decimation filter the fr, **workshops and short courses rfc symposium** - in this practical short course you will learn the system design of a frequency modulated continuous wave fmcw radar after a short theory lecture you will participate in teams to design and build a working radar at 1ghz, **workshops and short courses ims2019 ims ieee org** - in this practical short course you will learn the system design of a frequency modulated continuous wave fmcw radar after a short theory lecture you will participate in teams to design and build a working radar at 1ghz, **eval demorad evaluation board analog devices** - the 24 ghz radar sensor platform called demorad is a novel microwave radar evaluation platform solution with out of the box software examples and easy startup of radar sensor all done within minutes demorad platform enables rapid product prototyping aimed at r d interests in investigating radar and developing radar sensor products that can measure, **legacy air defence system upgrades air power australia** - technical report apa tr 2009 0601 title legacy air defence system upgrades abstract a decade after the cold war technology insertion programmes and upgrades began to appear in the market there were partly driven by market demands for better capabilities in their air defence systems but also partly driven by increasing difficulties in manufacturing obsolete technologies in a dramatically, **unmanned aerial vehicle wikipedia** - an unmanned aerial vehicle uav or uncrewed aerial vehicle commonly known as a drone is an aircraft without a human pilot on board uavs are a component of an unmanned aircraft system uas which include a uav a ground based controller and a system of communications between the two the flight of uavs may operate with various degrees of autonomy either under remote control by a human, **phase lock loop pll ieee conferences publications** - periodicals related to phase lock loop pll back to top microwave and wireless components letters ieee published monthly with the purpose of providing fast publication of original and significant contributions relevant to all aspects of microwave millimeter wave technology, **22 cfr 121 1 the united states munitions list cfr** - a u s munitions list in this part articles services and related technical data are designated as defense articles or defense services pursuant to sections 38 and 47 7 of the arms export control act and constitute the u s munitions list usml changes in designations are published in the federal register paragraphs a 1 through 3 of this section describe or explain the elements, **telecommunications abbreviations and acronyms** - consultation erkan is pleased to provide this living document for unlocking the evergrowing vocabulary of abbreviations and acronyms of the telecommunications world*
